In the Balkan highlands a remarkable people formed in the early middle ages, called Vlachs. These people had their own oral law and their own latin-based language influenced by Slavic and pre-Roman languages. One of these groups moved along the Carpathian Mountains until they reached the Czech lands of Bohemia, in Moravia. Merging with Czechs, they joined them in their fights for freedom against the Holy Roman Empire and the Kingdom of Hungary. What became of these people, and what did they contribute to the Czech struggle against imperial power? In this video, we explore the Vlach contribution to the Czech lands' struggle to keep its identity.
